

fishbowl

powered by **covello**

what is fishbowl: a “tables turned” approach to pitching where major companies pitch their tech-related projects or challenges to qualified startups and creatives

how does it work: 3 simple steps that equal real results

coach + build:

We work with you to define the challenge and coach you on how to clearly communicate it. **1**

curate + bid: **2**

Then we go curate the right talent, who bids, and help you make the right selection.

execution:

Finally, we serve as point of contact and work with you and the team to finish things up. **3**

the benefits: fishbowl allows for easy access + growth

companies: get fast, cost effective delivery, while building more local relationships.

startups + creatives: get access to decisions makers, projects, and capital to grow.

sponsors: get access and high visibility to startups and creatives, while creating new opportunities.
